5 Top Sectors with the Longest Average Time

Sector	Average Time (Months)
M38	4.50
M30	4.00
M25	3.58
M50	3.50
M5	3.45
Total	3.48

Notes

* It takes M38 an average of four and half months to complete a job. M30 takes four months while M25, M50 and M5 take three and half.

* These sectors have just a few engineers, hence, the reason for the slow rate of getting the job done.

Recommendation

* employ more employers in these sectors to

JOHN KENNY & SONS CONTRACTORS

Key Notes

M38 takes an average of four and half months to complete a job,
M30 takes four months while,
M25, M50 and M5 take three and half.

From the reports, these sectors have just a few engineers, hence, the reason for the slow rate of getting their job done.

Sectors like M6 and M7 (which have good numbers of employees) tend to spend less time on jobs, and in turn, have less cancelled jobs.

Recommendation

* It may improve performance by employing more hands in M38, M30, M25, M50 and M5 so as to reduce the average time of job completion.
